

Tagged Banner Extension For Magento2

The fast pace shifting of businesses towards online ecommerce platforms are prone to new age development and transformations. The Tagged Banner Extensions by Sprinix Technolabs serves the requirement of neo methodology comprising listing and selling of products. This extension comes with spatial view control with compound visibility and interdependent utility of products which results in improved customer experience hence more sale convertibility. The Extension is based on concept of idea shopping, Tagged Banners help customers in decision making in purchasing products. Which in turn results in business growth and profit.

Admin Store Configuration

To Configure the Sprinix Tagged Banner Extension for your stores follow the path given below

STORES -> Configuration -> SPRINIX -> Tagged Banner

For the field, 'Module Enable', select Yes to enable the extension, if field is set to No then module will not display Tagged Banner for the stores.

If you have multiple stores then you can configure Tagged Banner module store wise.

The screenshot displays the Magento2 Admin Configuration interface. On the left is a vertical sidebar with icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area is titled 'Configuration'. At the top, there is a 'Scope' dropdown menu set to 'Default Config' with a question mark icon next to it. A blue callout box with an arrow points to this question mark, containing the text 'Select Tagged banner module store wise'. To the right of the scope is a 'Save Config' button. Below the scope, the 'SPRINIX' section is expanded, showing a list of modules: Tagged Banner, General, Catalog, Security, Customers, Sales, Services, and Advanced. The 'Tagged Banner' module is selected, and its configuration is shown. The 'Module Enable' field, which has a '[store view]' label, is set to 'Yes'. A blue arrow points to this field.

Admin Tagged Banner Grid

Follow the path given below to manage Tagged Banner list

CONTENT -> Upload and Tag Banners

The screenshot shows the Admin Dashboard with the 'Content' menu open. The 'Upload and Tag Banners' option is highlighted with an orange arrow. The dashboard also displays a 'Reload Data' button, a 'Go to Advanced Reporting' button, and a summary section with Revenue, Tax, Shipping, and Quantity. Below this is a 'Bestsellers' tab and a table with 5 items.

Items	Total
1	₹74.00
1	₹45.00
1	₹45.00
1	₹33.00
1	₹33.00

Results: 35, Uses: 1

Upload and Tag Banners Grid shows all Tagged Banners you have created with information like Banner Id , Status , Banner Name , Thumbnail .

The screenshot shows the 'Tagged Banner' grid. It includes a search bar, a table with 1 record, and a 'Select' button. The table has columns for Banner ID, Status, Banner Name, Thumbnail, and Action.

Banner ID	Status	Banner Name	Thumbnail	Action
286	Enable			Select
